

Works update notice – utility trial holes, Quainton

January 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current strategy makes it clear that construction activity can continue as long as it complies with this guidance. Please be assured that only sites that can operate within the guidelines are operational. All sites will remain under constant review. We have postponed all face-to-face engagement events and meetings and have put in place a number of channels to communicate with communities, such as letters and phone calls, as well as updates and alerts from each of the local community websites. You can sign up for regular updates in your local area at www.hs2inbucksandoxfordshire.co.uk

What are we doing?

As part of our preparatory works, we are continuing with our Ground Investigation (GI) and utility works. For this we need to carry out some utility trial holes and surveys.

When will these works take place?

The works will commence from **1st February 2021**

As part of these works, there will need to be a short-term road closure of Fiddlers Field road and an overnight closure of Station Road, Quainton. There will be a full diversion route in place to divert all local road users.

Works will be carried out over night from 7pm to 6am.

As with all our works, there may be times where dates may differ depending on what we find on the ground as well as other external conditions such as the weather, but we try to deliver the works within the date ranges provided.

We always work to reduce disruption where possible.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
